

24TH International Conference

CALL FOR PAPERS

Radioelektronika 2014

April 15-16, 2014 Bratislava, Slovak Republic
<http://www.radioelektronika.cz>

Guarantees

DURACKOVA Daniela,
Slovak University of Technology in Bratislava (SK)
KRATOCHVIL Tomas, Brno University of Technology (CZ)
MAZANEK Milos, Czech Technical University in Prague (CZ)
MASOPUST Jiri, University of West Bohemia in Pilsen (CZ)
JUHAR Jozef, Technical University of Kosice (SK)
SCHEJBAL Vladimir, University of Pardubice (CZ).

Technical program committee chair

ONDRACEK Oldrich,
Slovak University of Technology in Bratislava (SK)

Topics

- Electronic Circuits and Systems,
- Signal Processing and Applications
- Lightwaves and Microwaves.

Topics include, but are not limited to: Linear and Non-linear Circuits and Systems, Bioengineering Circuits and Systems, Medical Electronics, Image Processing and Multimedia Systems, Analog and Mixed Signals Circuits, Communication and RF Circuits and Systems, Antennas, Greens and Power Electronics, Low-Power Techniques and Harvesting Energy, VLSI Systems, MEMS/NEMS Devices and Applications, Emerging Technologies, ...

Important Dates

31-01-2014: Full paper submission
28-02-2014: Notification of acceptance
14-03-2014: Final paper submission
21-03-2014: Close of registration
23-03-2014: Preliminary program

Best student paper awards

Papers bearing a PhD or Master student as the first author will be considered for the Radioelektronika Best Paper Award. A maximum of two other co-authors is allowed.

Submission

All paper submissions will be handled electronically via conference web pages.

Registration fee

160 EUR : Regular fee
140 EUR : Members of IEEE
Members of Radioengineering Society
and Czech Electrotechnical Society
120 EUR : Students

The 24th International Conference Radioelektronika 2014 is organized by Slovak and Czech technical universities in order to create a discussion forum for researchers, academics, experts, and students, who are interested in the latest development in the area of analog and digital circuits and systems, analog and digital signal processing and related disciplines.

The official language of the conference is English.

The conference will be indexed and abstracted in IEEE Xplore.

Venue and accommodation

The 24th International Conference Radioelektronika 2014 will be held at the SUZA Hotel, located in an attractive, quiet district of Bratislava. The SUZA Hotel provides also accommodation for conference participants.

Bratislava can be easily reached by train, bus or car. The local airport is also a destination of several regular flights. The venue can be easily reached by public transport.

Benefits

The conference will be held in Bratislava, the 'little big city' on Danube in the heart of Europe.

Bratislava is a modern city with rich history, beautiful places, breathtaking view points, cosy cafes and restaurants and a unique atmosphere. Inhabitants of Bratislava are very hospitable and easygoing, happy to help and meet new people. We wish you pleasant exploring of all the things the City of Bratislava has to offer.

Bratislava is located 60 km away from Vienna, one hour by train. So one can easily make half-day trip to see historic centre of Vienna, including Baroque castles and gardens, as well as the late-19th-century Ringstrasse lined with grand buildings, monuments and parks.

We will be looking forward to hearing from you and seeing you at our conference.
