

BASIC INFORMATION ON THE DOCTORAL STUDY IN THE PROGRAM

Information, Communication and Control Technology

at the Faculty of Electrical Engineering and Informatics, University of Pardubice

The complete regular doctoral study takes four years. In the first two years student passes through three specialized subjects chosen from 20 offered ones in the particular Ph.D. programme and through examination in English language. In the third year through the state doctoral examination should be executed. The student works on his/her doctoral thesis during the whole study and takes part in research activities at the training center. They should present and defend their dissertation thesis at the end of their studies. The study could be executed either in the Czech or in English language. Those, studying in the Czech language are asked to communicate in Czech. Students, studying in the English language pay tuition.

The doctoral study at FEEI are realized in either of the two following forms:

- full – time study – the student should attend the department regularly according to the particular agreement with the department chair. Also participation on teaching at the extent of 4 hours per week minimally is required.
- part-time study – the student studies individually and attends only consultations with his/her supervisor and with professors and cooperates on research with his/her colleagues.

The typical admission procedure schedule:

- New dissertation topics announcement: April
- Application deadline: May
- Entrance interview: June
- Admission statement: July

INFORMATIONS FOR ACCEPTED PhD STUDENTS

Only the **full-time students** studying **in the Czech language** will obtain regular scholarship of the Czech Ministry of Education and Youth for the time of regular doctoral study i.e. for 4 years at maximum. The scholarship amount depends on students grade and study results according to the special faculty regulations.

The PhD. student is assigned to the particular Training Centre (one of the Departments of the FEEI). Since then he is subordinated to the Department Chair in the case of work attendance, research activities (in accordance with the supervisor), teaching and further operations, related to the Department activities.

All the doctoral study follows the “PhD. Student Individual Programme”, prepared by the student’s supervisor and signed by the supervisor and the student and authorized by the dean of the FEEI.

The study duties performance according to the Individual Programme is assessed yearly by the Doctoral Study Board on the bases of an Annual Report prepared by the student and his supervisor at the end of each academic year. In the case of unsatisfactory student results the Dean may stop the student’s work at the FEEI and expel the student from the doctoral study on the Doctoral Study Board recommendation.

The PhD. student main duties at the FEEI:

- To study the selected subjects according to his/her Individual Programme and pass the required examinations
- To work on research in the Training Centre under the department chair instructions (in agreement with the student’s supervisor).
- To publish regularly results of his research in the respected media
- To work on his doctoral thesis under control of his supervisor
