ECO-FRIENDLY EVENTS AT UPCE

Sustainable development activities at the University of Pardubice include specific steps, projects, or measures that the university implements with the aim of improving its resilience, reducing its negative impact on the environment, using resources efficiently, and preparing for future challenges.

Let's clean up the campus - March

European Sustainable Development Week (ESDW)
UPCE, september

EARTH DAY- APRIL

SECOND-HAND SHOPS IN PARDUBICE

Second-hand shops support an **eco-friendly** lifestyle. By giving clothing, books, household items, and furniture a second life, they reduce waste, limit the demand for new production, and help conserve natural resources. Buying pre-owned goods cuts carbon emissions and supports mindful consumption, affordable choices, and a circular economy.

REUSE CENTRE OF THE CITY OF PARDUBICE

Na Staré poště 2903

Dishes, household equipment, furniture

The voluntary contribution is dedicated to supporting environmental education in Pardubice.
